

ALLDAY TIME SYSTEMS LTD

# Allday PrimeTime

## • Outstanding efficiency for small businesses

The PrimeTime attendance system offers exceptional entry level features for the modern small business. Assisting in the accurate preparation of payroll information and labour resource management.

Easily installed with only minimal PC knowledge required. However should it be required, the backup of a full support helpdesk team is on hand for the first 30 days. The system includes many reports to assist you, including clock card style reports and exception reports for such things as lateness and unexpected absence.

The latest Microsoft .Net<sup>®</sup> technology is used coupled with SQL databases giving you a fully scalable product should your needs change in the future.

The system can be installed on your existing network using your current cabling infrastructure.

## • Key features

- Choice of Biometric Fingerprint or Proximity terminals.
- 50 employee capacity system.
- SQL database.
- Fire roll call report.
- Export file for payroll.
- Multiple overtime categories.
- Department and section reporting.
- Exception reporting, such as lateness.
- Uses Allday designed and developed software.
- 30 days free comprehensive helpdesk support and set-up assistance.
- TCP/IP communication and USB memory stick file transfer as standard.
