

CONTACTLESS TIME & ATTENDANCE TERMINALS

We have a range of terminals and options with no need for any physical contact with a shared device to register an In or Out.

PALMREADER 8000

- Ultimate Biometric Device
- Fujitsu 'Palm Secure' biometric technology scans the user's palm veins from a 4 to 5 cm distance
- Maximum accuracy and security (10 times more accurate than a typical finger print reader)
- LCD display, Green/Red LEDs and voice instructions for simple enrolment and use

PT1400 RANGE

- Facial Recognition or Proximity (RFID) Readers for Fobs and Cards
- Vivid colour screen
- Audio and visual indications for acceptance/ rejection

ALLDAY CLOCK IN APP

- Users clock In or Out on their smart phone - no need to use a shared device
- Geo location records where user registered the clock In / Out
- Ideal for home workers and field service staff
- The Allday Clock In App needs to be linked to an existing Freetime Hosted System, PrimeTime Web Account or ATM system on a rental arrangement

CONTACTLESS EXIT SWITCHES

- Replaces push to exit switches or push buttons
- No physical contact - just wave a hand in front of the unit
